Technical Skills

Languages: Javascript, Typescript, Ruby, Python, SQL, Java

Frontend: NextJs, React, VueJs, CSS, Mocha, Chai, Jest, Loki, Storybook, Splunk UDF, Puppeteer, Tailwind, Contentful

Backend: Ruby on Rails, Node.js, ExpressJS, Redis, PostgreSQL, MongoDB, Splunk SPL

Cloud: Splunk Cloud, AWS EC2, AWS Lambda, API Gateway, AWS S3, DynamoDB

General / Tools: Docker, Git, Figma, JIRA

Experience

Splunk (Cisco) - Software Engineer

Jan 2025 – Current

React, TypeScript, SPL, Splunk UDF, Splunk Cloud, Loki, Storybook, Cypress, Git, CI/CD

Vancouver, BC

- Engineered data monitoring dashboards in Splunk Web using React, TypeScript, and Splunk UDF (Jsonnet), with optimized SPL queries that reduced latency by 20% and improved real-time ingestion monitoring.
- Designed scalable Jsonnet templates for Splunk UDF, enabling streamlined deployment to Splunk Cloud and reducing setup time by 25%.
- Developed reusable frontend components and integrated error handling, data validation, and ingestion monitoring, enabling 40% faster issue detection.
- Implemented comprehensive testing pipelines with Jest (unit tests), Cypress (functional), and Storybook + Loki (visual regression), reducing regression issues by 15% and ensuring reliable releases.

Fresh Prep - Fullstack Software Developer

Sep 2023 – Jan 2025

Vuejs, Docker, Ruby on Rails, ExpressJs, Mocha, Chai, Puppeteer, GCP, PostgreSQL, JIRA

Vancouver, BC

- Championed the conception and implementation of impactful features utilizing Vue.js and Ruby on Rails for backend manipulation and API organization, resulting in a notable 10% surge in user engagement and retention, alongside system performance optimization through seamless integration of Google Cloud services to meet system demands.
- Effectively integrated and oversaw Contentful to optimize content management, enabling marketing teams to coordinate and schedule content updates in alignment with diverse promotional offers and strategic marketing initiatives.
- Implemented robust UI testing procedures using Mocha, Chai, and Puppeteer to ensure comprehensive test coverage and maintain application integrity.

DivTech Development Inc- Frontend Engineer (Contract)

Feb 2024 – June 2024

NextJs, Typescript, TailwindCSS, ShadcnUI, NodeJs, PostgreSQL, AWS

Vancouver, BC

- Developed the frontend infrastructure with Next.js App Router, seamlessly integrating server components for dynamic routing and server-side rendering, enhancing application performance and user experience.
- Engineered route connections to the Express backend, ensuring efficient communication between frontend and backend systems while leveraging Next.js's server-side rendering capabilities for improved data delivery.
- Implemented a custom middleware leveraging authentication protocols, ensuring secure access to protected pages within the application.

British Columbia Liquor Distribution - Java Developer Co-op

May 2022 – Dec 2022

SpringBoot, Javascript, Java ETLs, Web services

Vancouver, BC

- Enhanced the privacy and security of team meetings by developing a web application prototype, utilizing HTML, CSS, and JavaScript for the frontend, along with API calls via Axios, and Spring Boot for the backend, effectively replacing the expired WebEx subscription.
- Monitored and debugged Java ETLs to maintain high performance across numerous sessions, while also managing and maintaining Java web services and Oracle databases to ensure efficient communication and transactions between the company and external stakeholders.

Education

Simon Fraser University

Sep. 2020 – May 2024

Bachelor of Science in Computer Science

Vancouver, BC

El Paso Community College

Jul. 2018 – May 2020

Associates of Art in Computer Science

El Paso, TX
